***Petition for Fair and Equitable Treatment of Submerged Land
Lease Program***

We the undersigned demand fair and equitable treatment in the administration of the submerged land lease program as it affects private residential properties. Currently the vast majority of private single family residences on sovereign submerged lands are exempt from all lease fees, taxes, surcharges, and other add-on lease fees while 100% of all multi-family residences on sovereign submerged lands MUST pay ALL the lease fees, taxes, surcharges and other add-on lease fees. This is very unfair and inequitable and must be rectified.

We need to pass a strong and helpful HB13 and SB88.

Signed:
